Professional Summary

Computer Science Engineering student with hands-on experience in Python, Java, SQL, Machine Learning, Data Analytics, and full-stack application development. Experienced in building practical applications using REST APIs, MongoDB, NLP/AI technologies, and data analysis libraries, with a strong focus on real-world problem solving.

Education

Shri Guru Gobind Singhji Institute of Engineering & Technology, Nanded Aug 2023 – May 2027 *B.Tech in Computer Science Engineering*

- CGPA: 6.21 / 10

Projects

Awaz – Real-Time AI Voice Translator | *Node.js, Express.js, MongoDB, Web Speech API*

- **Engineered** a full-stack real-time voice translation platform integrating **4 translation engines** with speech recognition and text-to-speech.
- **Built** RESTful APIs using Node.js and Express.js with MongoDB-based persistence for translation history.
- **Implemented** configurable translation services supporting LibreTranslate, Google Cloud, DeepL, and OpenAI.

Project Link: GitHub Repository

Smart Traffic Signal System (SignalSync) | *Python, FastAPI, OpenCV, Computer Vision*

- Developing an adaptive traffic-signal prototype that estimates traffic density from video input to support data-driven signal timing decisions.
- Set up a Python/FastAPI application and implemented video input from files, webcams, and IP cameras.
- Structured the project for future vehicle detection, tracking, density analysis, and adaptive control modules.

Certifications

Building with Artificial Intelligence (CS205) — Saylor University 2026

- Credential ID: 6795763790AF

Career Essentials in Data Analysis — Microsoft & LinkedIn Learning 2024

- Covered data analysis fundamentals, Excel analytics, Power BI, and data storytelling techniques.

Learning Data Analytics: Foundations — LinkedIn Learning 2023

- Studied core data analytics concepts including data types, visualization, and analytical thinking.

Technologies

Languages: Python, SQL, Java
Technologies: Machine Learning, Statistical Analysis, Data Visualization, Predictive Modeling, NLP
Frameworks & Libraries: Pandas, NumPy, Scikit-learn, Matplotlib
Tools: Git, Excel, Power BI, Tableau, Jupyter Notebook
Database: MongoDB
